

## Ideation Phase Empathize & Discover

Date	27 September 2022
Team ID	PNT2022TMID18402
Project Name	Project – Developing A Flight Delay Prediction Model Using Machine Learning
Maximum Marks	4 Marks

### Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to help teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.
